You now have a choice...

Khosla Profil has over 30 years of experience in manufacturing of Filtration and Industrial fabrics having fully integrated operations right from fibre to made-ups. With the recent expansion & by acquiring world class technology, we are today at par with any European company

Fabrics for Modern Filtration Equipment

Vertical Filter Presses

Horizontal Belt Filters

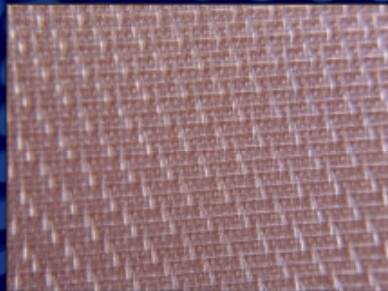

Membrane Filter Presses

Monofilament Fabrics

Advantages of Anti-static fabrics

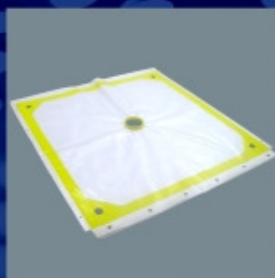

- MONOFILAMENT Fabrics Single and Double layered woven fabrics (DLW)
- **High Flow Rate** and **excellent permeability/resistance** against choking
- Instant **cake discharge**
- Guranteed **Nil elongation**
- Very **high strength** and **even pore size** distribution.

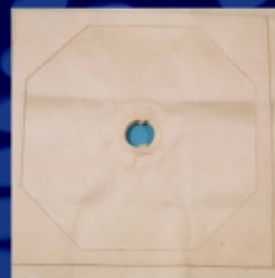

Specialised Made-ups

Zero Filtration Barrel

Coated Made-ups

Gasketed Made-ups

The difference is in the fabric...
